NUMBER 33

Legislature Approves Local Option Change Ending Unit System

BILL TO BECOME
LAW FEBRUARY 19

Frankfort, Ky., Feb. 6. — A wet-sponsored bill revamping Kentucky's local option law squeezed through the legislature today and touched off a dry call for state-wide prohibition.

The State Senate gave the final legislative OK to the legislation, 20 to 18, after heated debate. It was the barest margin possible with all 38 senators voting.

Lt. Gov. Lawrence W. Weatherby, who can cast a tie-breaking vote, was absent, attending the Southern Governors' Conference at Tallahassee, Fla.

Right after the Senate's vote, Rep. Jason Alford (R-Heidrich) introduced a bill in the House proposing a state constitutional amendment to proclaim state-wide prohibition.

Alford fought on the dry side when the House pounded out an 18-14 victory for the wet's bill on Wednesday. That was bigger than wet spokesmen privately anticipated. The Senate margin was smaller than expectations.

Wets hailed the legislation as opening the way for them to regain some wet-minded cities officially dry counties. It would allow cities of the first four population classes to vote independently of their counties in local option referendums. The cities could call for elections right after the bill becomes law.

Drys attacked the bill as destroying the historic county-unit system of voting provided by the present local option law. Ninety-three of Kentucky's 120 counties now are officially dry, as well as parts of others.

Gov. Earle C. Clements who remained publicly silent on the liquor question, received the new bill along with three highway measures, which received whacking Senate majorities today. They, too, were passed by the House Wednesday.

While he signed them and a \$3,000,000 supplemental teacher pay bill, he did not put his signature on the local option legislation. Observers said they expect him to let it become law without signature.

A legislative source reported the governor had expressed reluctance to veto any measure passed by the predominantly Democratic legislature. This source said Clements had advised those asking him to veto the liquor bill.

The governor has 10 days, excluding Sundays but not holidays, to sign or veto the bill. If he doesn't act in that time it automatically becomes law.

Eighteen Democrats and two Republicans voted for the local option bill. Eleven Democrats and seven Republicans voted against it.

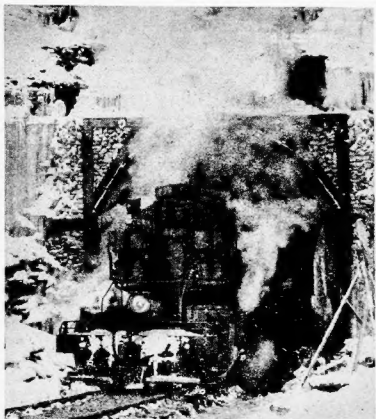

Majority Leader R. P. Moloney (D-Lexington) called up the local option bill, Sen. J. N. Shalkan (D-Louisville) moved "the previous question" after briefly speaking for the measure.

Carrying on a voice vote, this put the bill in position for final action, shutting off amendments. But Moloney granted opportunity to speak for and against the bill.

The roll call was watched tensely. The dyes went ahead 6-3 but it was tied 7-7. Then it got 11-3 against the bill.

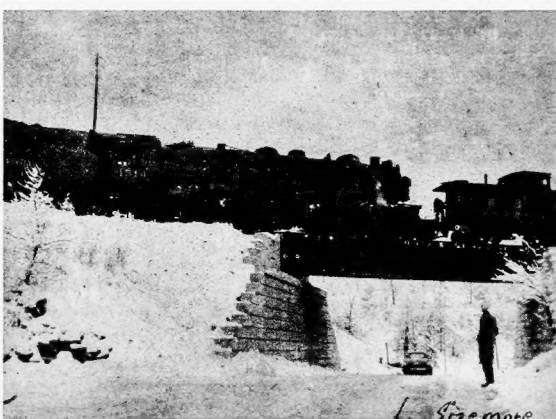

Eight successive "yes" votes (Continued on Page 2)

NEON MAN KILLED IN ROADSIDE FIGHT

First Train Through New C. & O. Tunnel

This is the first train to use the new 3,622-foot tunnel bored through Pine Mountain. The tunnel is a part of the 14-mile extension of the Chesapeake & Ohio Railway from Jenkins to a new and undeveloped coal field in Wise County, Va. It is expected to be in regular use soon.

First Train To Pass Over New Bridge

Above is another picture of the train passing over one of the new bridges with Mr. Burpo as engineer. This bridge is on the extension line which crosses the Ky-Va. state line. The building of this new line is considered one of the greatest engineering feats seen in these parts for many years.

Four Held In Hazard Jail After Slaying

Hazard, Ky., Feb. 18. — Johnny Kendricks of Haymond was killed last night near Jeff and five men are being held in the Perry County jail this morning under investigation for murder. Kendricks was brutally beaten about the head and neck and was slashed on the neck with a knife, according to Deputy Sheriffs Bill and Olin Turner, who are investigating the slaying.

Kendricks and a friend, Johnny Adams had left Neon yesterday, headed for Hazard to obtain some watches from a repair shop, according to testimony from Adams yesterday. Adams told the officers that they thumbed a ride with four men listed as Luther Combs Jr., Ovie Pitman, Johnny Cummings and Burly McConnell, McConnell is from Pennington Gap, Va., and the other four from Vico.

Adams said that a fight started in the moving automobile and that the driver soon stopped and the scuffle continued on Highway 15, about one mile south of Jeff.

"During the fight," Adams told Deputy Turner, "I heard one of them say, 'we might as well throw him in the river, he's dead.'"

Adams further stated that the aggressors turned on him and he jumped in the river and swam across to the other side.

A passing taxi-driver had witnessed the fight and left immediately to call law enforcement officers. He communicated with the Highway Patrol, who went to the scene. A local patrolman said yesterday morning that when he arrived two of the men, Combs and Cummings were hitchhiking. They denied any knowledge of the fight but were arrested because of the condition of their clothing.

Bucky McConnell was brought to a local hospital by a Vico resident and treated there for lacerations and abrasions. Pitman surrendered to authorities voluntarily this morning.

A searching party was organized by the Highway Patrol who thought that Kendricks' body may be in the river. The body was found on the banks of Carr's Fork Creek by Jennings Evans, A. Y. Shively, Vogel Woods and John Shively.

The body was first identified as that of Talt Jones, but was later identified as that of Kendricks.

No inquest has been held and will not be conducted until further investigation by the Sheriff's Office uncovers additional evidence.

Proof of the Navy's effective immunization program against tetanus is seen in the fact that not one combat casualty developed that affliction. And of some five million Naval personnel, only four cases developed resulting from accidental injuries. Of the two tetanus deaths from these injuries, one man had a record of no immunization and the other's was incomplete.

Baptists Welcome Missionary

The First Baptist Church of Whitesburg is having a service of welcome Sunday evening, February 22nd, at seven o'clock for Rev. David L. Bailey, newly appointed missionary for Letcher County. Mr. Bailey is beginning work on Rockhouse Creek and will spend some time with Missionary Baptist churches in the county helping in any way he can. At present he is living at Fleming and supplying for the church there until he can find a place to live. Mr. Bailey is a native of the mountains of Virginia coming with him to this work is his wife. The Baileys have three children. The other churches in the county are invited to send representatives to this special service.

Rev. L. O. Griffith, Assistant to the General Secretary of Kentucky Baptists, and former pastor of the church here will represent the State Mission Board in the services. At the close of the service motion pictures taken in Whitesburg and surrounding communities by Mr. Griffith several years ago will be shown.

Mr. Griffith will also be the guest speaker at the morning service at ten-fifty at the church.

The Holbrook Co. Opens New Store

The Holbrook Company opened a new store last week in the new building recently erected by J. S. and W. G. Holbrook just above Millstone. This is a general merchandise store and the stock will consist of groceries, meats, vegetables, dry goods, notions, hardware and furniture. The managers invite the entire public to visit their new store and see the fine line of merchandise.

Body of Deceased Vet Returned to Pinetop

The body of Estill Williams arrived at Pinetop, Ky., the 10th of February. He was killed in France during World War II and was the son of John H. and Susana Williams. He is survived by his parents, 6 brothers, 5 sisters and a large number of other close relatives and friends to mourn his loss. His body was laid to rest on Mallett, Feb. 13. Services were held in the home, Elder Nelson Seals officiating last just before the burial took place.

Flood Waters Strike; Roads Property Damaged Severely

Hundreds of families throughout the counties of eastern Kentucky were reported driven from their homes by flood waters during last week end. Dangers of a major flood along the larger streams were discounted as tributaries start to recede on Saturday.

Towns reported damaged were Beattyville, Booneville, Jackson, Pikeville, Hazard, Harlan, Pineville, Middlesboro and several communities near Manchester. The little town of Oneida in Clay County was badly damaged as flood waters from three creeks forced many families to flee from their homes.

Perry Rail Line Is Approved

Hazard, Ky., Feb. 14.—Construction is expected to start soon on a 6-mile branch line of the Louisville & Nashville Railroad in Perry County, authorized recently by the Interstate Commerce Commission. The line would extend southeast from Jim Hill along Leatherwood Creek and Blair Fork of that creek. Railroad officials estimated the span would take a year to build. A maximum of 2,000,000 tons of coal is expected to be tapped by 1950.

That would bring the total production of the Leatherwood Creek field up to 5,000,000 tons. The new branch was estimated to cost \$393,000.

Passenger and Mine Run Trains Collide Near Pine Mt. Jct.

The passenger train that comes from Neon at 4 A. M. in the morning collided with a Mine Run train Tuesday morning near the Pine Mt. Junction and just opposite the home of D. W. Little about two miles east of Whitesburg. Five empty cars were derailed and demolished and the two engines which ran together were badly damaged. The engineer of the passenger train was Mr. Robinson and he suffered severe shock and bruises. Fireman Maloney also suffered bruises and shock. Mr. P. H. Barnett, conductor, was his usual self, having only a few scratches. The passengers were shook up and bruised slightly, but none were seriously injured.

At this time it is not known the extent or amount of the damage or who was in fault or cause of the wreck. As this is written crews are busy moving the wrecked engines and cars away.

Drys Displeased Over Acts of Legislature

Drys here and over the county, as well as elsewhere over the entire state, were indignant this past week, and openly declaring the new act of the Legislature unless vetoed by Governor Clements, will result in statewide prohibition. As this is written, a veto is not expected, although the Governor may permit the bill to become law without his signature. The new measure seems to destroy much of what the dyes have fought for. The House of Representatives was in favor of the change, 60 to 23, and the Senate by a vote of 20 to 18. It is said to break down the county unit system and permits the sale of drinks in cities of the first four classes.

Mr. G. Bennett Adams was visiting pastor at the Jenkins Bethel Church on Sunday. A large crowd attended. The people were united with the church.

A. & P. Cuts Price Of Bread 1c Per Loaf

A 1c cut in the price of its 1 lb. loaf of bread effective here today (Thursday February 19th) is announced by A&P Food Stores. The reduction is from 13c to 12c. "This price cut is in line with our policy of promptly reflecting in our retail prices in any reduction in the cost of food to us," Company announced. "Any further reduction in cost will result promptly in lower prices to our customers."

Mrs. Ferdinand Moore Accepts Society Editor Post

Mrs. Ferdinand Moore one of Whitesburg's most popular young women this week accepted editorship of socials of The Mountain Eagle. Mrs. Moore is very anxious to serve you and know what you have been doing in the way of news so don't be backward about giving her your local. Don't expect her to be a mind reader or a person who knows everything, but instead give her all the news for the paper that is of general interest to the people of the county as a whole and especially your friends and family who are living elsewhere and looking to the Eagle to get the local happenings.

Mrs. Moore has applied for a telephone and shortly you can phone her your news items.

The Adams Co. Opens New Store

The Adams Company, a new store owned and operated by Sandy Adams opened a few days ago in the new building near Pine Mt. Junction. The new business will deal in Hardware and Furniture and house hold appliances. Mr. Adams invites the public to visit his new place of business.

Capt. Ray Fields son of Monroe Fields of Roxana, was visiting home folks at Roxana, recently. While here Capt. Fields paid The Eagle a visit and had sent to him at his present station in Washington,

Atlanta, January 28.—"Marriages Are Made" is the subject of "The Baptist Hour" for February 22nd, with Dr. T. F. Adams of Richmond, Virginia as speaker, it was announced today by the Radio Commission of the Southern Baptist Convention, Atlanta, S. F. Lowe, Director. Heard over Station WHAS at 7:30 A. M. CST. "The Baptist Hour" series, "Divine Light For Daily Living," considers one of the most vital problems of our day, the home, in the last two Sundays of February.

Dr. Adams, who will be heard both weeks, is pastor of the First Baptist Church, Richmond, and one of the most popular speakers ever to appear on "The Baptist Hour," having spoken in 1942. He is an expert in the field of marriage and the home. His subject for February 29 will be "A House With a Home Inside."

Featured on the February 22 program, will be the sixth favorite hymn, determined by a poll among interested listeners, including six and a half million Southern Baptists.

Watch your copy of "The Mountain Eagle" for the Baptist Hour Announcements. Mrs. Archie Craft was in Louisville several days last week under doctors observations, also visiting with Mr. and Mrs. Charlie Zink.

NEWS in the WORLD of RELIGION BY M.W. DEED

According to the Rev. Donald E. Rugh, Methodist missionary in Muttra, India, a prominent American church leader interviewed Mahatma Gandhi shortly before his assassination. "Do you think the Christians will be persecuted in the new India?" asked the American. "Of course they will," replied the Mahatma. "Whenever Christians live up to the standard of Christ they will be persecuted."

Headed by Archbishop Erling Eidem, of Uppsala, a party of six leading clergymen of the Church of Sweden (Lutheran) will visit the United States this summer to participate in the centennial observance of the founding of the work of the Lutheran Augustana Synod which has its headquarters in Minneapolis. The synod's annual convention will be held in Rock Island, Ill., June 7 to 13. Bishop Eidem will also attend the bi-centennial of the Pennsylvania Ministerium in Philadelphia. May 24-27.

Recently elected general secretary of the Brotherhood of St. Andrews, Lt. Gen. John C. H. Lee, former American commander in Italy, and now retired, says that he expected to give the rest of his life to this religious and educational work among the men under the Protestant Episcopal Church. His first task will be to organize an evangelistic campaign for men and boys across the nation. In this job he will work with Presiding Bishop Henry Knox Sherrill. The Brotherhood was founded in 1883.

The world's most famous blind person, Miss Helen Keller, author, teacher, and humanitarian, will leave on March 28 by plane for a year's visit to Australia, New Zealand, Japan, Korea, China, Burma, Siam, India, Pakistan, Egypt, Iran, Palestine, Lebanon and Syria. The trip will be made under the auspices of the John Milton Society, a church-sponsored organization for meeting the moral and religious needs of the blind, an organization of which Miss Keller is president and one of the founders. Miss Keller, despite her sixty-seven years and her

Roads Severely Damaged By Snow

Frankfort, Feb. 11 — State Highway Commissioner Garrett L. Withers said today recent heavy snow and ice have weakened many state roads so that the Highway Department must lower their weight limits in order to prevent serious damage from trucks and heavy vehicles.

In an official order the Commissioner authorized the department's Division of Maintenance to provide for the posting of sections of state and federal highways which are in a weakened condition.

The order stated notices will be posted at conspicuous places along all highways on which the department has reason to believe damage may be caused by motor trucks or semi-trailers whose gross weight exceeds the emergency limits.

"We are asking all truckers operating in the state to cooperate fully in the observance of the emergency limits," Commissioner Withers said.

He added the department has been informed that Virginia and other neighboring states already have established emergency limits and are advising out-of-state truckers that the limits will be strictly enforced.

"All District Highway Engineers have been asked to report any damage observed so that immediate steps may be taken to prevent spread of this damage to adjacent areas," the Commissioner said.

He stated the emergency limits will be kept in effect until the department determines that weakened sections have become sufficiently stabilized to carry normal loads without damage.

IN MEMORY

We wish to express our love and sympathy in the death of our aunt and great aunt, America Collins.

When the news came of her death we were deeply depressed with sorrow. We loved her very much, we always met her smiling and she always had a big kiss and hug for us. She visited our home several times and we were always happy to have her. We found her a lot of fun.

I think she must have been 82 years old. The only aunt and great aunt living. We are going to miss her more than we can express.

She leaves to mourn her loss, daughters and sons, also two brothers, Riley Bentley of Democrat, and John L. Bentley of Deanne, and many relatives and friends.

Their great loss is Heaven's gain.

We will never forget the day they laid her to rest, in the Deanne Cemetery. The ground was covered with snow and real cold. The people showed their love and appreciation by coming out in the cold. We didn't think of her in the cold snowy ground and dead. We think to her as the following poem.

I cannot say and I will not say, that she is dead—she is just away! With a smile, and a wave of the hand.

She has wandered into an unknown land and left us dreaming how very fair! Its needs must be, since she lingers there, and you—Oh You, who the wildest yearn. For the old time step and the glad return.

Think of her faring on as dear. In love of there as the love of here;

Think of her still as the some, I say She is not dead, she is just away.

Murton Bentley and daughters Florence & Vennie.

J. R. Watts, agent of the Louisville and Nashville Railroad at Pascagoula, Miss., is also the mayor of that ship-building center on the Gulf Coast and is now serving his 18th year as the city's chief executive.

Two Cent Tax Put On Gasoline

Frankfort — Enactment of a special two cents tax on gasoline and a budget bill for the State Highway Department by the General Assembly has given to Governor Earle C. Clements the necessary finances to carry out his promises to Kentucky, "an expanded program of rural roads."

"Kentucky can now face its road building program with confidence" was Governor Clements' comment as he signed the highway legislation after its passage by the House and Senate.

The bills which have been passed will enable the state to match all federal highway funds for road building purposes and at the same time give Kentucky an adequate amount for the construction of secondary and rural roads," the Governor said.

Governor Clements long has been a strong advocate for the expansion and development of an adequate rural road program. He most recently stated his position in a message delivered to a joint session of the General Assembly in which he urged the passage of the additional tax on gasoline.

"I promised the people of Kentucky that I would recommend to you an expanded program of rural roads," he told the legislators and continuing said "I made that promise sincerely and I am now prepared to suggest to you a program that will accomplish this vital need of our people."

In explaining the need for the additional tax on gasoline, Governor Clements said "No one will disagree with me, I am sure when I tell you that if Kentucky avails itself of its opportunity to match all available federal funds for highway purposes, insufficient funds will be available for an expanded rural road program."

Mr. and Mrs. John Hall and Mr. W. M. Hall are visiting friends in Tampa and Wacha, Florida.

Recovery Planned For Mine Victims

Frankfort, Ky. — A State Senate Committee is studying a new proposal today to recover the bodies of 20 miners entombed by a Bell County coal mine explosion.

Under the plan, Kentucky would put up the money to open a mine near the disaster pit so that coal could be mined as the men worked toward the spot where the bodies lie.

The pit would be under supervision of the State Mines and Minerals Department, and royalties from the output would be returned to the State.

Authorities estimated it would take a year to complete the removal and burial.

Thirty-one men lost their lives in the disaster Dec. 26, 1940, at the Kentucky Straight Creek Coal Company's No. 1 mine at Four Mile, Ky. Rescue workers had to abandon attempts to bring out the bodies because of bad air and uncontrolled fires.

Federal and state mine inspectors told the committee the new plan would be safer and cheaper than trying to re-enter the Straight Creek Mine.

The hearing was on Senator Ray B. Moss' bill to appropriate \$100,000 to remove and bury the bodies. Bell is Moss' home county.

Abe Vales, Middlesboro, president of the United Mine Workers District in which the disaster occurred told the committee the majority of people in counties near the disaster scene want a "Christian burial" for the miners "regardless of cost."

THIS LIFE OF OURS

It is a strenuous age in which we live; everyone tries to get ahead faster than the other fellow. Ideals are forgotten in the mad rush for supremacy. Brotherly love is something that seems to make a good subject for essays, but that is about all. Charity has been commercialized until all the sweetness has been squeezed out of it.

It seems that the greatest need of the world today is more old-fashioned character and kindness; a slowing up of the rush long enough for some of us to realize that we are not here for too terribly long after all. The best thing that we can contribute to our times is tolerance and love. The surest method of receiving consideration is to give it. It is much more pleasant to slap a fellow on the back than to punch him on the jaw.

It is a steep grade, this thing called life, and we should welcome every opportunity to give our comrades a lift when they need it.

"Life itself can't give you joy. Unless you really will it; Life gives you time and space; It's up to you to fill it."

—Selected.

Tests at the Western Kentucky Experiment Substation, Princeton, emphasize the importance of keeping only pullets for layers and selling all old hens. Average results over a period of 11 years show that annual production of Barred Rock pullets was four dozen eggs per bird greater than that of barred Rock hens. In the case of White Leghorns the pullets laid three dozen eggs per bird more than old hens. During the winter months, when egg prices are normally higher, pullets laid more than twice as many eggs as the older birds. Also, death losses were less among the pullets. These results indicate that at present prices of feed and eggs, it is unprofitable to keep the older hens.

A two-year comparison was made to determine the relative value of hens and pullets breeders. It was found that pullet eggs had a slightly higher percentage of fertility and hatchability than the egg from the older hens. Also, the percentage of strong chicks hatched was slightly greater from the pullet eggs. Pullets hatched from pullet eggs laid as well as those hatched from eggs produced by two- and three-year old hens.

The home of Mrs. Harold Eubanks of Kenton county shows the work she has done as a result of being a member of a homemakers club over a period of several years. She

has made ruffled glass curtains for all the windows; then she made slipcovers, bed spreads, and lamp shades, and has woven tops for footstools and caned seats for chairs.

The little six months old son of John B. and Edith Smith of May, Ky., died with whooping cough February 1. Funeral was held Tuesday the third, Elder Henry Blair, officiating.

Blackey Reapers 4-H Club News

On February 9, the Blackey Reapers 4-H Club met at the Stuart Robinson School with Betty Sue Dixon, President, presiding.

As the club members assembled they enjoyed studying the artistic designing of fruits and vegetables in color on the blackboard. Curtis Deane Cornett and Jimmy May sketched the life-like drawings. In line with the program (Ourselves and What We Eat,) Bobbie Jo Lusk outlined nine steps that should be followed in attaining good health. The foremost point stressed was knowing and eating every day the foods that make for optimum health.

Pauline Roark explained how "That Super Look" could be obtained. After illustrating her talk with samples of fruits and vegetables essential for beauty and brawn, she displayed two medium-sized dolls contrasting the untidy, carelessly dressed person with the well-groomed neatly dressed person.

A skit composed of five members including Oma Jo Dixon, Faye Lusk, Joyce Fields, Ann Ruth Back, and Christine Branson was presented showing how to "Get the most from Vegetables" in selection, storage, preparation, cooking and sewing.

During the business session, Christine Branson gave a report from the membership Committee. Twelve new members joined the Club in January.

The president then outlined the Community activities of the Club. A garden plot of ground has been donated to the club by Mrs. Callie Back and I. D. Back. Work will

soon begin in preparing the soil for maximum yields.

Wednesday night, February 11, the members enjoyed "a health and recreation party" in the playroom of the Doermann Memorial Presbyterian Church. Thirty-one boys and girls were present. As the members arrived they brought gifts of clothing and other useful articles which were collected and presented to the Chester Dagnon Family.

Future plans of the club included "an old-fashioned spelling bee" and an ice cream "fete". An advertising committee with Jack Nichol, as Chairman, was appointed to make plans for these activities.

Miss Roberta Halcomb, Demonstration Agent, and Mr. Robert Fike, County Agent, gave helpful information on the Room Improvement project work, and outlined how to give a demonstration. Several Demonstrations are being planned.

Mr. D. R. Hollan while on a business trip to Lexington recently purchased a series 75 Cadillac. Mr. Hollan and family motored to Norton Va., in the new car Sunday.

During 1947, the Naval Air Transport Association flew 495,893,175 passenger miles without a single fatality.

BY EWING GALLOWAY

It's great fun writing long individual stories about numerous achievements of cities, towns and counties, but single items about things happening here and there make just as interesting reading matter.

Here are some items I know you'll like:

Mayor Donald A. Campbell of Lebanon recently contributed all his salary, \$1,000 to a recreation park for people of all ages. This means Mayor Campbell, a former president of the National Retail Lumber Dealers' Association, is serving his town gratis. The people of Lebanon will make the fund big enough to equip a fine recreation park on what is now an open field owned by the city. It will be equipped for all outdoor games Kentuckians play, according to Oliver Kelly, editor of the Lebanon Enterprise.

If all the boys and girls in Russell, metropolis of Greenup county, don't grow up to be first-rate citizens it won't be because the community, aided generously by the C. and O. R. R. haven't done well by them recreationally. In Russell nearly all civic affairs revolve around the C. and O. Y. M. C. A. With its present facilities the Y. M. C. A. is the center of all the community recreational activities. During all the open months it sponsors a general playground, with full-time paid supervisors. In addition to all kinds of facilities for small boys and girls, from a wading pool to roller-skating, nearly all there are lighted baseball and softball diamonds. And, according to Editor E. D. Mitterdorf, the editor of the Russell Times, this Y. M. C. A. cooperates with the schools of the entire county in Bible study projects.

State Salary Limits Would Be Boosted

Frankfort, Ky., Feb. 14. — A new proposal to boost the state's \$5,000 annual limit on salaries may be given Kentucky law-makers next week.

The new plan, which will recommend \$20,000 a year for the Governor and \$15,000 for Court of Appeals Judges, is being readied for introduction in the General Assembly. It calls for higher limits than those introduced earlier, this week by R. P. Maloney, Lexington and Louis Cox, Frankfort.

The Maloney-Cox Constitutional amendment proposed a \$12,000 limit for all state-wide elective officers, Appellate Judges and Commissioners of State Depts. Circuit Judges, would get \$8,400 and all other \$7,200.

The new proposal will call for \$10,000 for statewide officers, the Mayor of Louisville, College Professors, state employees, professional hirings and independent contractors with the state.

It would allow payment of \$12,500 annually to Appellate Court Commissioners, Superintendents and Wardens of Hospitals and Prisons, heads of Administrative state Departments and presidents of the state's institutions of Higher Learning. Circuit Judges

Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic, arthritic or muscular pain, try this simple, effective home recipe that dissolves your pain. Get a package of Bufo Compound, a 2 ounce bottle. Mix a quart of water, add the juice of 4 lemons, one teaspoon of salt and mix well. Add one tablespoon of Bufo Compound two times daily until you feel better. If the pain does not quickly leave and if you do not feel better, Bufo will not be your doctor. Bufo has a money-back guarantee. Bufo has been recommended by GUILLON DRUG, Whitesburg.

and Hi-Y and 4-H Club work. On top of all this, work has begun on a new Y. M. C. A. building that will cost approximately a million dollars.

Speaking further of recreation centers, Elizabethtown bought for \$10,000 the Federal Government's USO building, which cost \$80,000, named in the Memorial Recreation Center, and is operating it for the town's youth. According to Editor W. H. Marriott of the Elizabethtown News, funds for salaries and maintenance are provided out of the community fund, raised annually by popular subscription.

Mack Sisk, co-publisher with Niles Dillingham, of the Dawson Springs Progress, writes me encouragingly about a financed promotional plan in his recently awakened town. There are 100 contributors ranging from 25 cents to \$250 a week. The money is used to promote industrial development, with a recently organized Chamber of Commerce drum-majoring the march. In 1947 Dawson Springs got its first factory, a washing garment making concern, uniforms for railroad and chain drug store employees mainly. After a doze about twice as long as Rip Van Winkle's 20 year nap, Dawson Springs seems to have its eyes and ears wide open. I attended the first anniversary meeting three weeks ago of its Rotary Club, a get-together meeting for all the half dozen local organizations interested in community development, and I drove back to the farm feeling positively certain that the Hopkins county town with a lot of mineral springs in it was on its way to many bigger and better things.

would receive \$8,500. Mayors City Managers, Sheriffs and County Judges would receive 7,500.

DONGOLA BOY REENLISTS INTO ARMY FOR THREE MORE YEARS

Trouble Seen In Politics

Washington, Feb. 12 — Organized Labor's drive to swing the 1948 elections ran into double trouble today.

The two big complications seemed to be:

1. The possible chilling effect of a Grand Jury indictment on union political spending.
2. Divided political loyalty within the ranks of both AFL and CIO.

The indictment was returned by a Federal Grand Jury here yesterday. It cited the CIO and its President, Philip Murray, under the section of the Taft-Hartley Act which bans use of union money for political purposes.

A CIO strategist said privately the indictment is bound to discourage unions from campaign spending.

Even if the unions doubt the government can make the indictment stick, he said, "As a tactical matter it will determine them."

The CIO contends the section of the law involved is unconstitutional. Its lawyers hope to get a Supreme Court ruling before the high tribunal takes its summer recess in June.

Both the AFL and CIO have as their aim the defeat of congressmen who voted for the Taft-Hartley Act. But both are finding it hard to make their members split hatched to a single line of political action.

The union term for such differences of opinion is "factionalism."

Identical Twin Brothers Marry Similar Sisters

Cumberland, Md., Feb. 14.—Two sets of identical twins are husbands and wives here with plans to live at Mayeville, W. Va., home of the brides' parents.

Wearing identical grey suits and gardenia corsages, Arvela and Louella Muntzing married Oscar and Elvern Summers respectively. The brides are 22. The grooms are 29 and former residents of Pansy, W. Va.

Rev. W. Randolph Kefe, Jr., performed the double ceremony here yesterday, with his wife as the only witness. Both honeymoons will be spent in Cumberland.

In theory, atomic power can drive a submarine of World War II type at 30 knots submerged for a year without refueling.

IN MEMORY

In Loving Memory of Sam G. Hamilton who departed this life February 25, 1946. We who were granted the loan of that kindness.

We who were chosen to know that sweet smile. We must be thankful the Lord in his graciousness Shared those great treasures with us for awhile.

It meant "Good Night" here but we know, It Will be "Good Morning" up there.

Mabel Hamilton Wife, Ruth Barker, Secretary

ROADS FOR FARMERS 'STILL IN THE MUD'

Better roads for farmers "still in the mud" is one of the main planks of the 1948 platform of the Crittenden planning committee. Effort also will be made to extend rural electrification and telephone lines. The county needs a veterinarian.

County Agent Oakley Shelby's work will include river bottom fertilizer tests, promotion of the corn derby as a means of demonstrating better yields, the ton-litter method of teaching hog raising, and expansion of 4-H club work.

Forty-seven 4-H club members in Woodford county produced 41 acres of tobacco 1 year, six of them selling 4.04 pounds for \$2,236.76, or at an average of \$56.72 per hundred weight. These crops averaged 1,445 pounds and brought the members \$819 per acre.

LIONS CLUB

The Lions Club of Whitesburg held their regular meeting on the birthday of one of our greatest presidents, Abraham Lincoln.

Lion Bradley Goodwin was in charge of the program.

The Club appointed a Committee to assist in the furtherance of the Boy Scout movement in Whitesburg. Lions R. P. Price, Walter Enlow, Orville Hughes, and Jim Dennis were appointed to the committee. This committee was to meet with other civic-minded citizens at Mother Craft's on Feb. 17th to make plans for the future of the Scouts.

Rev. Parker of the First Baptist Church was the speaker. He gave an inspirational setting of the novel and movie, "Mutiny on the Bounty". The points for discussion were in neither the picture or story. The life of the lone survivor of the wreck was accented. Due to his faith in God, the survivor transformed the lowly island that he was stranded upon from a place of sickness and death to a Heaven on earth.

We enjoyed Rev. Parker's talk very much and hope that he will be with us again in the near future.

Lion Lexie Potter is the program chairman for the next meeting, Feb. 19, 1944.

Making Homemakers

What a day! What a time, Friday 13, lucky or unlucky? Which?

Drip, drip, drip on thirteen umbrellas! Splash, splash, splash on twenty-six rubber boots as thirteen faithful homemakers went through rain, water and mud to the little red schoolhouse on the hill for their February meeting.

The lesson was given by Mrs. Elsie Blair on cooking. A dinner consisting of Shepherd's pie, butter, whole wheat bread, lettuce and pineapple salad, and cottage cheese cake was served.

Roberta Halcob, our home agent gave the lesson on the pressure sauce pan, as we did not have our January meeting because of bad weather. The lesson was very interesting as all the members have one or plan to get one soon. We are sorry more of our friends did not get to hear this lesson. Those that have a pressure cooker or plan on getting one soon missed something.

The business discussed for the evening was ways to raise money to send some one to the farm and home week in Lexington next year. Let us all work to carry our plans out.

Our guest for the evening was Reques Kincer, Home Agent from Floyd County. She was visiting the old home town for the week end. We were glad to have her with us. Come again Reques.

All the news of the community was then straightened out by thirteen weak "little" women and the meeting was dismissed.

Drip, drip on thirteen umbrellas! Splash, splash, splash went twenty-six rubber boots as thirteen Homemakers made their way down the hill to their homes in the valley no Friday the thirteenth.

A Homemaker.

Graham Memorial Presbyterian Church

W. Ernest Wilson — Pastor

Sunday School 10:00

Morning Worship 11:00

Sermon "The church at the twelfth hour"

There will be an installation service for the officers elected to active duty at the morning service.

Dr. J. G. Patton of Atlanta, Georgia, and Rev. L. E. Woodward of Hazard will be guest speakers at a stewardship rally at the church on Thursday Night Feb. 26th at 7:30 P. M.

Welcome to our services.

Carcassonne School News

We had our Valentine Party and Valentine Box on Friday afternoon. Both rooms had a good time, although many pupils were absent due to high water.

The streams in our community were swollen quite large on Friday and Saturday. Many walk logs and fences are now missing.

We are again receiving mail at the Carcassonne Post office. Several days in the past month we did not receive mail at all due to snow and high water.

School attendance is now about normal again in both the primary and upper grade room since the bad weather is past.

Mr. and Mrs. Joseph Smith from New Jersey are visiting friends and relatives at Carcassonne.

We have been able to play Volley Ball and other outdoor games since the school campus has dried up. Seems good after so long indoors.

—Harold B. Caulliff, Reporter.

Leland Taylor Funeral Service At Louisville

Louisville, Ky. Funeral services for Mayor E. Leland Taylor, who died of a heart attack yesterday, will be held Wednesday at 2 p. m. with burial in Cave Hill Cemetery.

The 62-year-old Mayor had entered a hospital Saturday for a checkup, but his condition had not been considered serious. He underwent two operations last October.

Alderman President Damm C. Byck was sworn in as acting Mayor yesterday afternoon shortly after Taylor's death. Kentucky law provides that Byck must call the Board of Aldermen no more than 10 days after less than 20 days after the vacancy occurred to elect a Mayor pro-tem.

Byck yesterday told a reporter in answer to a query that he was not a candidate for the position and would not accept. The board can name one of its own members or any qualified resident of Louisville as Mayor.

Gov. Earle Clements and other state and city officials yesterday expressed regret over Taylor's death. In a telegram to Mrs. Taylor, the Governor said the Mayor's death was "a very great shock to me and to all who knew and loved him."

Crum Most Improved Player On Union College Squad

Barbourville, Ky., Feb. 17 — Woodrow Crum of Burdine, former all-State basketball player at Jenkins High School, has been called the most improved man on Union College's cage squad by Union Coach Bill Holyard.

The sharp-shooting freshman is fast and poses a dangerous left-handed shot. He has scored 152 points in 29 games for Union this season.

March Of Dimes Closes Campaign

As Director of the March of Dimes Campaign for Letcher County, I wish to take this opportunity to thank the general public and everyone who contributed so generously to this worthy cause. The children, the schools, the teachers, the business and professional individuals and organizations responded marvelously to make the Drive a success. The goal of \$250,000 was reached and exceeded by \$690.33, the total raised being \$3190.33. The Jenkins Schools as well as our own public schools are to be commended for their efforts in improving child welfare through such a medium.

Again allow me to thank everyone and every concern for such splendid cooperation. Martha Jane Peter, Director March of Dimes Letcher County.

IN MEMORY OF MRS. ELIZABETH RISNER

I cannot say and I will not say, that she is dead she is just away.

With a cherry smile and a wave of the hand, She has wandered into an unknown land. And left us dreaming how very fair, it needs must be since she lingers there. And you oh you who the Wildest yearn, for the old Time step and the glad return. Think of her faring on as dear.

In the love of her was the love of here, think of her still As the same I say: She is not dead, she is just away.

Government Tells

How To Keep Safe At Home

Washington, Feb. 16 — Want to know how to keep from killing yourself accidentally at home?

The government has issued a 190-page book on the subject.

Called "Safety for the Household" it devotes a chapter each to such dangers as "chemical, electrical, fire, gas, lightning, mechanical machinery, yard and garden and miscellaneous."

How to give a new house built-in safety is discussed, along with "new hazards such as television equipment."

Among specific recommendations: "Envelopes and other gummed articles should not be licked for the purpose of sealing them. The tongue may be cut when wiped along the edge of the paper."

And if junior has a chemical set. Under no circumstances should he be permitted to mix substances just to see what will happen.

Copies of the book can be obtained for 75 cents each from the commerce department's field offices or from the government printing office here.

GIRLS WANTED

Between the ages of 13 and 35, for waitresses and soda fountain work, apply at PENNY'S SUNDRIES, Whitesburg, Ky. Phone 233.

L. & N. BRIEFS

A total of 183,575 cars of revenue freight were moved by the Louisville and Nashville Railroad in January, 1944, a decrease under the 168,562 cars handled in December, 1943, as well as under the 168,573 cars moved in January, 1947. The number of revenue cars in 1947—1,961,565—was 36,847 greater than in the heaviest traffic year (1944) of World War II.

To facilitate its track maintenance, the L. & N. Railroad has just authorized an expenditure of \$221,400 for additional roadway maintenance machines, and of approximately \$48,000 for 74 motors and 25 extra tops in replacement of older cars and equipment.

When James Hilary Ward, agent for the L. and N. Railroad at Mt. Pleasant, Tenn., retired just recently he had been with the Company for a longer period of time than any other employee in its 90-year old history. Mr. Ward had been an employee continuously for 63 years and seven months and had been agent at Mt. Pleasant, in the center of the famous phosphate rock deposit of the same name for the past 39 years.

Ball Ground, Ga., on the Knoxville and Atlanta Division of the L. & N. Railroad, so named not because of its proximity to some baseball diamond, as might be imagined, but because it was the scene of a historic stick-ball game between the Cherokee and Creek Indians to settle a fight over disputed territory. So popular and ferocious was such a game among the tribes in the Appalachians frequently used to settle disputes rather than go to war. The action was about as spirited in either case.

The L. & N. Louisville-Harlan sleeper which has been in daily service on Trains 21 and 24 between the cities named on an experimental basis since September 1, 1947, will be placed on a tri-weekly basis on Sunday, February 15, leaving Louisville on No. 21 that night. Thereafter, it will operate every Sunday, Tuesday and Thursday from Louisville, returning from Harlan on No. 24 Mondays, Wednesdays and Fridays.

Regardless of the development of new weapons, the Navy is still the first line the enemy must hurdle either in the air or on the sea in approaching our coasts across any ocean. The earliest warning of an enemy air attack against our vital center would be given by naval air, surface and submarine radar pickets deployed in the vast ocean spaces which surround the continent, Fleet Admiral Nimitz.

County Court Clerk.

Why Hotpoint REDUCES PRICES NOW!

One of Nation's Largest Appliance Manufacturers joins in Fight to Curb Inflation by Announcing Price Cuts as Much as 10 per cent on America's Finest Electric Ranges, Refrigerators, Disposals and Water Heaters Effective Immediately

Undoubtedly the greatest current threat to America's progress and prosperity is inflation . . . if unchecked, spiralling prices and wages threaten to wipe out many of the gains made by this country. In an effort to check this threat, the General Electric Company has taken the initiative by reducing prices on many of its products. With a firm conviction in the soundness of this program, Hotpoint—an affiliated Company of General Electric—is proud to join this crusade by announcing sweeping price reductions on practically its full line of household appliances—effective at once.

This voluntary price reduction—amounting in actual savings to you of as much as \$20 on some items—is being made purely in the public interest. And some of the greatest savings are on the most popular-priced models.

We expect to maintain these prices provided there are no further increases in our costs of labor and materials, and that there is no distortion of materials through rationing or new allocations.

Never have Hotpoint products been more in demand. Despite the fact that new production records are being made—through the most significant expansion program in the appliance industry—the demand still continues to

out-pace our ability to supply. Dealers all over the country report that more and more people are placing orders for Hotpoint products, and that they will not be satisfied with some other brands that may be more readily available.

Equally significant is the fact that these price cuts apply to Hotpoint's brand new 1948 models, most of which have just recently been introduced with many new features . . . appliances which dealers and the public alike acclaim as truly "post war" appliances.

Hotpoint accepts the responsibility that goes with leadership in the appliance industry by making this precedent shattering move. We hope that other manufacturers join this movement to curb the cost of living. We hope, too that every American citizen will do his or her part by spending less money for unnecessary things . . . by buying cautiously . . . by adding to their savings instead of drawing on them . . . and by doing all the other things that tend to force prices downward. Only by such action can we preserve the American standard of living which has made this country the envy of the entire world.

Curbing inflation is everybody's business . . . it's up to every one of us to do his part.

MORE ABOUT LOCAL OPTION . . .

(Continued From Page One)

put the wets out front for their biggest margin 19-8. The count narrowed to 16-13 in favor of the wets, then 18-15. It stood 20-16 upon completion of the calling of names.

Then Sens. Ralph E. Creal (D-Hodgenville) and Carlos B. Embury (R-Beaver Dam) who hadn't been recorded as voting when their names were called, cast votes against the bill, for the final 20-18 tally.

Sen. Ira W. See (R-Ashland) predicted just before the roll call that the bill's passage would bring statewide prohibition.

If the governor hasn't the courage to veto it, "See declared," I tell you, you'll have statewide prohibition before his administration is over" in 1951.

See said he hadn't intended to speak against the bill but Sen. Shunkin, in advocating passage, "roped me in" by quoting from See's home town newspaper the Ashland Daily Independent.

See said Editor James Norris wouldn't have favored the bill but would have "went into reverse" if he had witnessed the legislative tactics of the wets.

See said he had hoped there might be a liquor-control bill "I could vote for." He exclaimed "I dare you" to permit amendments.

The senator said he then would substitute a bill already introduced by Sen. Doug Hays (D-McDowell) proposing a state on monopoly on sale of alcoholic beverages. He termed the wets' bill "unfair" to dry rural areas.

But Sen. Rhodes K. Myers (D-Bowling Green) asserted

the legislation "takes out the unfairness of the present law." The latter provides that as a county votes dry another election can't be held for three years. But if a county votes wets, dries can get another election as soon as the necessary petition is approved.

Sen. Hays declared "I am not a wet" but was voting for the new bill as a better way to control liquor traffic. He advocated his own measure as still a better way to provide state revenue as well as to control liquor. He estimated his proposal would bring in \$20,000,000 to the state annually.

Others speaking against the bill included Sens. E. D. Stephenson (D - Pikeville) whose motion for a public hearing on the measure before a final vote was defeated Thursday and R. F. Jasper (D-Somerset).

Several opponents charged the bill had been "railroaded" through the legislature after introduction last Monday night, "without giving the people of Kentucky a chance to be heard."

"The bill would reverse the question that now is placed on the ballot in local-option elections. At present, this is the question: 'Are you in favor of adopting prohibition?' To this question a 'yes' vote is dry and a 'no' vote is wet."

The proposed new question would be: "Are you in favor of the sale of alcoholic beverages?" To this question a "yes" vote is wet, and a "no" is dry.

Under local option laws at present, if a county votes dry at a county-wide election, the entire county is dry. Another election cannot be called for three years and then, if one is called, it again must be held

on a county-wide basis. But if a county remains wet, the situation is unchanged, as if no election had been held. In this event, future elections may be called at any time.

The new bill makes these changes:

1. Any City of the first four classes in a dry county may hold its own local-option election. If the city votes wet any precinct in the city later may hold another local-option election to determine the status of the precinct.

2. If a county-wide election is held in a wet county, any city of the first four classes within the county shall vote as to city status, and the rest of the county shall vote as to county status. Thus the city can vote wet, the county vote dry, and vice versa.

3. If a city votes dry the entire city shall be dry. If a city votes wet and some precincts were dry prior to the election, dry precincts shall remain dry. But, if a city which is wholly dry votes wet, the entire city shall be wet. The same principles apply to the county outside of the city limits.

4. If a city holds an election and there is not a similar election in the rest of the county on the same day, or vice versa, the status of precincts in either shall be determined as if both the City and county, were holding simultaneous elections.

5. If a city votes wet and the rest of the county holds a local-option election in less than three years from the time the city voted wet, residents of the city shall not be required to vote again, and the city shall remain wet.

6. In cases where a city lies in more than one county, each section shall be treated as a

city of its respective county, Corbin for example, is in Whitler, Knox and Laurel Counties.

The bill affects 52 counties containing cities of the first four classes. It does not affect 63 counties with cities of the fifth and sixth classes, or where the principal town is not incorporated.

The county-unit system has been the predominating legal factor in the fact 93 of the 120 counties have voted dry since repeal of State prohibition in 1836. In Kentucky, 65 per cent of the precincts are dry, 64 per cent of the people live in dry territory, and 63 per cent of the area is dry.

The L. and N. Railroad has approximately 13,000 stockholders, some of whom are located in every state. About 46 per cent of the stockholders are women, or trust estates held for them.

Attention Farmers

Mr. C. E. Harris, Poultry Specialist, and Mr. John B. Gardner, Garden Specialist, both of the University of Kentucky, will be in Lettice County March 2, in the County Agents Office at 10 o'clock (CST) to give special instruction on poultry and gardening. It is a busy time to be in the garden for this year and it is certain Mr. Gardner will give you information you would like to have. Maybe you are wondering why your egg production is what it should be. Come on out and see what Harris has to say about it. Farmers and farm ladies who are interested in garden and Poultry raising are invited to attend this free meeting. (CST) 2-10-48. Whitesburg, Ky. Whitesburg Agents Office will be along any questions you may have. Clubs are also invited and urged to send a delegate to this meeting.

Mental Hospital Help Proposed

Frankfort, Feb. 18.—Special research work and training courses would be carried on by the State Division of Hospitals and mental hygiene under terms of a bill introduced Monday night by Senator Dr. R. F. Jasper, Somerset.

The Senator also proposed that each State mental hospital employ a qualified psychiatrist to examine patients sent to the institutions and that their admission or rejection depend on whether the psychiatrist decided treatment would benefit them.

The bill explained its purpose was to bring Kentucky's mental institutions up to a standard that would enable them to obtain federal aid. Jasper's bill proposed that at one of the institutions research work be carried on to discover causes of insanity and better methods of treatment.

Obituary of Curt Venters

Curt Venters, 30 years of age deceased this life February 8, 1948, he was the son of David and Ida Venters of May, Ky. The young man had been suffering for several weeks from weak kidneys and high blood pressure. His wife said that while she was with him in the hospital, that he said he had prayed and that he was prepared to go.

Curt was an industrious young father and provided well for his family. He said the only thing he regretted to leave for his wife and three small children. He said his children were not treated right. He leaves to mourn his loss, his wife, three children, father and mother, four brothers, four sisters and a host of relatives and friends.

His funeral was held at his little home on Wednesday, the 11th day of February, Elder Henry Blair and Denver Toliver, officiating.

Jenkins Mine Inspected

Extensive safety improvements effected recently at the No. 204 mine operated by the Consolidation Coal Company (Ky.) near Jenkins, Ky., are endorsed and additional protective measures suggested in a federal inspection report issued today by the Bureau of Mines. The Leicher County development employed 58 men and was producing about 3,000 tons of coal daily when reexamined in November and December by Inspector J. Willard Wood.

Recent beneficial changes reported by Inspector Wood, included prying down of several pieces of loose haulage way roof, improved ventilation in two working sections, driving of crosscuts at 30-foot intervals, removal of refuse from the shelter holes, cleaning of coal-dust accumulations from the mine, control of coal dust formed during coal operation, several electrical precautions, and the wearing of snug-fitting clothing by employees working near moving equipment.

Observing that several conditions and practices at the mine still did not conform with recognized safety standards, the inspector advocated generally increased rock dusting, unobstructed haulage way clearance, gas examinations before and after blasting on shift and firing of each shot or series of shots immediately after charging, offset in stalling and pressure-relief doors for the Marshall's Branch fan, and discontinuance of smoking underground and carrying lighting devices into the mine.

Sandlick Homemakers Club

Mrs. Elsie Niece was hostess to the Sandlick Homemakers for their January meeting.

The lesson on the use and care of pressure saucepans and cookers was given by Miss Roberta Halcomb. She pointed out so many good qualities, how to save time, labor, fuel, food, vitamins, etc. She also discussed the dangers of the pressure cookers.

There are many good brands on the market, but the most widely used is the miformatic. We are pleased to learn that there are twelve or more pressure cookers in our club.

The February meeting was held at the home of Mrs. Georgia Taylor.

The cooking lesson—one dish meal, was very thoroughly explained and demonstrated by our leader, Mrs. Elsie Niece. The meal was really delicious and enjoyed very much.

Members partaking of the food were Messdames, Fopple Adams, Georgia Taylor, Mollie Mullins, Irene Reynolds, Margaret Mullins, Elsie Niece, Minta Mullins, Susanne Adams, and Mrs. C. D. Lynch.

Visitors were Mrs. Robert Adams, and Mrs. John Arnold Niece.

"Nobody ever saved his soul by perpetually worrying about it."

Choir From Union College To Sing In Jenkins M. Church

Jenkins — Professor W. E. Hendricks, Director of the Union College 46-voice choir which will appear here February 29, at 11 a. m. in the Jenkins Methodist Church, demands perfection from his singers. He permits them to be satisfied with nothing less than the best that they can do.

Yet, this dynamic choral director, head of the Fine Arts

Department at Union College, recognizes the needs of the liberal art student who sings because he loves to sing, as well as the professional needs of the students who are music majors.

So, the program of the choir is selected to fit both needs. Audience enjoyment is also carefully considered by this original young director, who has learned what people like, in his years of radio program arranging and related experiences.

Director during the World

War II of the 1,000 voice Blue Jacket Choir of the Great Lakes Training Station, Mr. Hendricks came to Union in 1946 to organize the Fine Arts Department of Union, a small liberal arts college in the heart of Kentucky's mountains.

A graduate of Allegheny College in Pennsylvania, he had obtained his Master of Music Degree from the Chicago Conservatory, and studied in the graduate schools of the Eastman School of Music, and Heidelberg University in Germany, as well as at the Universities of Chicago and Kentucky.

His wide experience includes direction of choral groups in various parts of the country, and critics conducting at choral festivals and Master choral schools. As a composer and author he has many published choral works.

Mr. Dennis Back, Jeremiah, Kentucky has completed a Course in Practical and Theoretical Radio and Television and has been awarded a Diploma by the National Radio Institute of Washington, D. C. He finished the prescribed Course of technical studies with creditable grades and is to be congratulated upon his achievement.

GETS BIG YIELD

On land that has been in tobacco for 17 years, Murphy Bros., of Russell county produced 4,780 pounds of leaf on .8 acres in 1947. Farm Agent Joe Wilder notes that Mr. Murphy turned under a good crop of vetch and used 1,000 pounds of complete fertilizer plus 200 pounds of ammonium nitrate.

Robert Wells Killed In Mines

Robert Wells, McRoberts, Kentucky, passed from this life on Saturday, February 14, 1943, at the Jenkins Hospital. He was injured on the day before in his coal mine The Wells Coal Company of McRoberts, Kentucky. He was caught in a slate fall and was crushed in the face, chest and limbs. He was a former employee of the Consolidation Coal Company but for the past two months had been operating his own mine. He was the son of Robert and Rosa Preston Wells and was born on July 26, 1898, being 49 years, 6 months and 16 days of age at his death. He was married to Myrtle Beare who survives. He also leaves to mourn his loss, one child Bobby Gene, and two step-children, Charles Fields and Mrs. Emer Lawson, both of McRoberts, one brother, Arlie Wells of Mealy, Kentucky, one sister Mrs. J. D. Farley of Van Lear, one step sister, Mrs. Charles Jennings, Drift, and two brothers, Bill Arrowwood of Drift, and Estill Arrowwood of Nashville, Tennessee. Mr. Wells had many friends. He had a winning personality and was a wonderful friend. Everywhere he went, he made friends. He was a Christian man, his church preference. The Church of God. He was industrious hard working, a good citizen, and a gentleman. His sudden and tragic death has been a sad shock to his family and many friends. Funeral services were held at the home of J. B. Farley, Van Lear, on Tuesday, February 17, 1943. Burial in the Price cemetery, Mealy, Kentucky. Craft Funeral Home in charge of funeral arrangements.

Duana Jean Brewer

Duana Jean Brewer, little daughter of David I. and Jeanie Jones Brewer of McRoberts, Kentucky, passed from this life on Wednesday, February 11, at the Fleming Hospital, where she had been a patient for a few days. She was born on April 21, 1947, being 9 months and 21 days of age at her death. She is survived by the bereaved parents one brother, James David, and grandparents, Rev. Porter and Bertha Brewer and Troy and Maude Jones, all of McRoberts. Funeral services were held at the Baptist Church, Chesapeake, on Sunday, February 15, 1948, at 12 noon. Burial in the Chesapeake Cemetery. Craft Funeral Home in charge of funeral arrangements.

Johnny Baxter Kendrick

Johnny Baxter Kendrick of Cromona, Kentucky, was accidentally killed on Friday night, February 13, near Jeff, Kentucky. He had been beat in the head and face and thus died of cuts and bruises. The particulars of his death are not fully known as yet. He was the son of John and Bertha Baker Kendrick, and was 34 years of age at his death. He was an employee of the Harlan-Kendricks Coal Company. He leaves to mourn his loss, one brother, Rev. Harlan Kendrick of Cromona, with whom he made his home. He was a hard worker and had many friends in Neon and Hammond and Fleming. His tragic death has been a sad shock to everyone. Funeral services were held at the "Whitaker" Free Will Baptist Church on Tuesday, February 7, 1948 at 11 A. M. with Rev. John Miller and Jimmy Seffert officiating. Burial in the Whitaker Cemetery, Craft Funeral Home in charge of funeral arrangements.

America Warned Sixty Days Would Decide Next War

Washington, Feb. 16. — If war comes to America again, the first sixty days will decide the winner, Dwight D. Eisenhower said today.

Eisenhower, now an elder military statesman, said so in his farewell report as army chief of staff.

The General took a look at matters diplomatic as well as military, in writing his final official statement.

He saw the European recovery plan fathered by Secretary of State Marshall as vital to "our sister democracy" and to us.

Eisenhower did not mention Russia by name but he said:

"If the western European countries were to 'become the pawns of totalitarianism, the world's security would be in dire danger'."

"If the democracies of the Mediterranean area should fall and that corridor between east and west were blocked, 'the effects would be instant and catastrophic'."

"War, in such case, would be close to us," Eisenhower declared.

Looking down the purely military road, he predicted:

"Because of major nations in the future will be armed with weapons of terrifying destructive power, a series of lightning blows might conceivably end a future war at its outset."

In such case, the resulting peace would not be cursed by wide-spread devastation of the enemy's land and internal facilities for living.

Miner Held In Tennessee Jail In Death Of Cab Driver

Tazewell, Tenn., Feb. 16.—A 35-year-old miner today was being held in Claiborne county jail in default of \$10,000 bond on a charge of murder in the slaying of a Middlesboro, taxi cab driver, Sheriff A. N. Muncey said.

Muncey said Bill Berry was arrested at his Bryson mine, (tain home shortly after the death of Robert Davidson. Davidson was shot to death Saturday in what Muncey termed an attempted robbery. Muncey said a schoolgirl and her mother witnessed the slaying.

Another man, Albert Ayles, 35, was taken into custody as an accomplice, to the slaying, Muncey said.

Mrs. Ancil Warwick and her 12-year-old daughter, Anne told of seeing Davidson, Bayles and Berry alight from Davidson's taxi in a miners' residential area. Muncey said.

Berry fired a shot at close range the sheriff said he was told by the girl and her mother, and Davidson crumpled to the ground. A .38 caliber cartridge was found at the scene.

Davidson reportedly displayed a large sum of money several days ago, Muncey said, and he was known to have made no deposits since.

Preliminary hearings for the two men have been set for Thursday, Muncey added.

Designer of the U. S. Army's Transportation Corps' military railroad car used in transporting the remains of heroes of World War II from ports of embarkation to distribution points through out the United States is John H. Beswick, formerly employed by the L. and N. Railroad as a clerk at various points on the Louisville Division. Mr. Beswick is now a transportation specialist with the Transportation Corps and spent some 90 hours in 1942 studying the military railroad car. The new car, the Army now has 118 of in service.

Mrs. Larkin Combs, who is a teacher at a Virginia-Intermont College in Bristol, spent the day with her parents, Mr. and Mrs. Kermit Combs.

Mrs. Habert King and children of Belfry, Ky., are spending this week with Mrs. King's parents, Mr. and Mrs. John A. Craft.

Mountain Mission School Announces \$500,000 Building

A campaign to raise a fund of \$500,000 to construct two new buildings for the Mountain Mission School was announced yesterday by John Thomas, Division Superintendent, Norfolk and Western Railroad and Chairman of the Campaign.

The building program, Mr. Thomas said, will include the following: a new boys' dormitory to house 300 boys; a new girls' dormitory to accommodate 400 girls, remodeling of the present Administration Building and the addition of an auditorium. When the program is completed the School's enrollment can be increased from its current capacity of 236 students to 700.

A large number of applications for admission from needy mountain sections, who are rejected due to lack of space, make the enlargement program urgently necessary, Mr. Thomas said. "The School, since its founding 27 years ago, has provided an important humanitarian service to homeless and orphan children from the mountain district of Virginia, West Virginia, Kentucky and Tennessee. Today there are more than 3000 former students of the School engaged in various careers as lawyers, doctors, merchants, teachers, nurses, stenographers and housewives. These former orphan children are an asset to society. Without the School, most of them either would not have survived or would have been a permanent burden on the community."

The School has never before engaged in a public fund raising campaign. Mr. Thomas said. The institution is a non-profit Virginia corporation which owns approximately \$350,000 worth of debt free property comprising of 2,000 acres of coal and timber lands and some thirty buildings.

"Sam Hurley has devoted his life to the School and so far, has carried the burden both of providing capital funds and soliciting operating funds, Mr. Thomas said. "He now desires, at the age of 70, to assure the continuance of his life-work for the benefit of coming generations of mountain children and to expand the School plant to meet the growing demands for admission."

Barkley Favors House Election In Presidential Years

Lexington, Feb. 12 — Sen. Alben W. Barkley (D-Ky.) addressing a University of Kentucky convocation yesterday, said he favored electing members of the House of Representatives every four years, at the time the president is elected instead of every two years.

He said such a plan would remove the "embarrassing and inefficient" condition of having a congress out of harmony with the administration. "Pre-war divisions and bitterness have returned" in congress as a result of "the people's decision to change the complexion" of the two houses in the non-Presidential election years, Barkley said. Kentucky's senior senator

marked that the Russians are using every means of propaganda in having places in the United States. However, he've met with little success he added.

OUR DEMOCRACY — by Mat

PLENTY OF "GET-UP-AND-GO"

AMERICA OWES MUCH TO THE QUALITIES SUMMED UP IN THE EXPRESSION "GET-UP-AND-GO."

THE FIRST SETTLERS WHO CAME TO AMERICA HAD PLENTY OF IT.

Southeastern Kentucky Garden Club

Middlesboro, Ky.
February 14, 1948

Dear Garden Club Member:
While snowbound for the past month we have all had time to peruse the seed catalogues and to read articles and books on garden culture and flower arrangement. Most of us cannot have large gardens but we can plan our gardens to suit our needs. A well known landscape architect said a garden should be designed with one third the plant material you think you and your outside help can

take care of. Speakers and writers advise giving particular thought of the kind and color of flowers and other plants most suitable for arrangement in the home, garden or wherever you use them most.

The spring meeting of the Southeastern Kentucky Regional Garden Club group will be held at the Middlesboro Garden Club on Friday, Feb. 19, with the Garden Club of the Women's Department of the Middlesboro Garden Club as hosts. The meeting and luncheon will be at Little Lumbert, a favorite eating place near Middlesboro. We will have a

Second only to the Derby race, the National Garden Clubs in Lexington May 29 to June 1.

The Jackson club had an open meeting at Guerrant Memorial Presbyterian Church last beautiful Christmas program. Mrs. Jett, our regular treasurer, was the organist. They report a successful sale of garden calendars.

The London Garden Department has an interesting music display of envelopes

(Hazard) is continuing with its excellent programs and constructive projects at the Bobby Davis Memorial Park. They have replanted the old in Memorial Park with three huge flowered Oregans, pansies.

The London Garden Department has an interesting music display of envelopes

and talks on antiques.

The Barbourville club, of both men and women doubtless has the nearest one hundred per cent rating of our clubs in knowledge of horticulture, flower arrangement and everything pertaining to garden club work. Their list of available speakers is amazing and not all their talent is listed. Their Christmas Decorations Contest must have made the entire town a truly lovely place at that season. It was conducted to include decorations of stores, schools, churches and homes of members and non-members. We wish we could give a description of

some of the many lovely decorations judged for the rubrics.

The Middlesboro Garden Club was privileged to have Mrs. W. M. Wilson of Barbourville speak on "Color Harmony" at a recent meeting. The club hopes to sponsor a general flower show this year for the first time since the war.

The Middlesboro Garden Department has had some excellent speakers including Mrs. Earl Raabold of Bowling Green on "Flower Arrangement," Mrs. Robert White on "Christmas Decorations" and Dr. A. H. Doak on "The Romance of Food and Soil."

We have not had reports on the programs and activities of the other clubs.

Sincerely,
Mrs. Nelson C. Allen, Director
Mrs. J. Henry Lewis, Program Ch.

NEON

(by Jonelle Collier)

A shower was given Thursday night for Mr. and Mrs. Robert Adams at the home of Mrs. Adams parents, Mr. and Mrs. W. M. Aquilino. A good many were present. Mr. and Mrs. Adams received many nice and useful gifts.

A Valentine Party was held Friday night at the First Baptist Church, sponsored by Mrs. Isaacs. An unusual crowd attended—games were played and delightful refreshments were served.

Miss Jeanne Franklin was home from Eastern spending a few days with her parents, Mr. and Mrs. Sam Franklin.

Mr. and Mrs. Edgar Steele and family spent the week end in Knoxville. They were accompanied by Mr. and Mrs. Ray Wilson.

Brenda Meredith, a Second Grade pupil is confined to her home due to measles.

A banquet was given Monday night at the high school. The students reported a wonderful time.

BIRTHDAY DINNER

A birthday dinner was given Sunday at the home of Mr. and Mrs. H. R. Yonts by Mrs. Yonts in honor of Mr. Yonts' 63rd birthday. Mr. Yonts seems to be in good spirits and is getting along unusually well. A delicious dinner was served to the following: Mr. and Mrs. Shafter Davidson, Mr. and Mrs. J. M. Yonts, Sr., Mr. and Mrs. J. M. Yonts, Jr., Rubie Martin, Virgil, Patricia, Carol and Tommy Yonts, Mr. and Mrs. Sherman Quillen, Mrs. Willie Collier and daughter, Mr. and Mrs. H. R. Yonts. Mr. Yonts received many useful gifts.

Mr. and Mrs. Claude Creech and family have moved from the John Phelps property to their home in Jenkins which they have recently purchased.

A good many cases of colds and flu have been reported.

Schools are progressing nicely in this section.

Miss Anna Lee Jones Craft is home from the west visiting her mother, Mrs. Maryland Scott and other friends and relatives.

Mrs. Jimmie Isen accompanied her daughter to Louisville where she will be confined to the hospital for some time.

Mr. Bauer of Johnson City Tenn., was a visitor in Neon last week.

Mr. and Mrs. Eugene Day (nee Lucy Adams) are proudly announcing the arrival of a 7 1/2 pound son born February 12, at the Methodist Hospital, in Pikeville. The young man has been named Robert Eugene. Visiting the proud parents and baby on Sunday were Mr. and Mrs. Ted Yontz and Miss Minerva Adams.

Vote To Slash \$56 Million

Washington, D. C. — A slash of \$56 million in the President's budget estimate was made by the House Appropriations Committee in the year's first major appropriation bill of \$991 million for independent offices.

Rep. W. Howes Meade, Kentucky's ninth District, supported the reduced figure which passed the House by a vote of 339 to 10.

The appropriation would cover operations of the Executive Office and 30 independent offices and agencies during 1949.

An important amendment introduced by Rep. John Heseltin (R-Mass.) and adopted by the House would prevent expenditures for the conversion of federal buildings from coal heating to oil or gas during the current acute fuel shortage on the Eastern seaboard.

Meade also voted "yes" on two measures to benefit veterans. One would increase subsistence allowances for veterans in school from \$65 to \$75 monthly for single veterans, and from \$90 to \$105 for married veterans. Those having more than one dependent may draw subsistence of \$120 monthly.

The second measure would increase on the job training ceilings from \$175 to \$250 for single veterans and from \$200 to \$325 for men having one dependent and to \$350 for those having more than one.

Both measures passed the House with little opposition.

How A & P Gives You Lower Food Prices

During the past week you have noticed lower prices on many important food items in A & P Stores.

These prices are a direct reflection of the reductions in the market cost of the food to us. Many of our customers are amazed to find these price reductions going into effect so quickly at the retail level. They wonder how we do it. There is no mystery about it.

We are able to reflect these market reductions promptly because of three basic policies:

1. We endeavor to buy our food from primary sources of supply, such as farmers, meat packers and grocery manufacturers, and move it directly to our stores and warehouses. This keeps down the cost of distribution to us and the price to you at all times.
2. When the cost of food to us goes down we do not wait until we have exhausted supplies on hand, but endeavor to reflect reductions in our retail prices promptly.
3. We are food merchants, not food speculators. We do not build up great reserves of food at any time. We are in the market from day to day buying food to meet our customers' day-to-day needs.

The lower prices you are finding in A & P stores, coming as they do at a time when all of us are concerned with the high cost of living, have prompted many of our customers to ask us what the food price outlook is. Are there going to be further price reductions in these and other foods?

Frankly, it is impossible for anyone to predict future retail food prices without knowing whether the break in the commodity market is temporary or the beginning of a general trend. Grocers do not control the price they must pay for food. They can lower retail prices only to the extent to which they buy wisely, keep their own costs and profits down and pass along savings resulting from lower wholesale prices to their customer.

We base our retail price on the cost to us, plus our low cost of doing business, which includes our small profit of about 1 1/2 cents on each dollar of sales.

Therefore, we can say A & P prices will follow the market trend and that any further reduction in the cost of food to us, or in our costs of doing business, will promptly result in lower prices in our stores.

You can count on A & P to give you lower prices whenever and wherever it is possible. You can trust A & P to give you the most quality food for your money.

The Great Atlantic &

Pacific Tea Company

JENKINS NEWS

—by Lee Sizemore—

William A. Stapleton, Superintendent of Mines 2067-4 and Wright mine at Dunham was chosen the outstanding Kiwanian of 1947 by his fellow club members. Although Bill has only been a member of the Letcher County Kiwanis club for two years, he has rapidly developed into one of the outstanding members of his club. Bill first drew the attention of his fellow club members and the citizens of his community when he devoted so much of his time and energy in raising a sufficient sum of money to help defray the expenses of a local Boy Scout to the International Jamboree held in France. Bill would not stop until the boy, James Arvid Mullins was on his way to France and returned to tell the Kiwanis Club of his experiences.

Also Bill was elected President of the Band Boosters Club this fall and he at once set about to raise the necessary money to purchase new uniforms for the marching band. He received the support of the entire community and in a short while the contagious enthusiasm of Bill had enabled his organization to raise not only enough funds to purchase instruments and additional equipment.

During the oncoming year of 1948-49, Bill will serve as chairman of the boys and girls committee of the Kiwanis Club, and already many plans are under way by Bill and his committee to make Jenkins and surrounding communities a better place to live for both young and old.

If you were in the Recreation Building any time Saturday morning and saw all those delicious looking pies and cakes and didn't buy one, then you really missed something. They were all home made by the Seniors of JHS. The proceeds from this bake sale will help the Senior class to make their trip to New York in the late spring.

Mr. and Mrs. George Selfe and Lee Sizemore were visiting Mr. and Mrs. Charles Finley in Marion, Va., Sunday.

Mr. and Mrs. Roscoe Miller, Jenkins announce the engagement of their daughter, Marquette, to Mr. Gordon Garrett, of Baltimore, Md. The wedding date is April 10th. The couple plan to take a trip to Niagara Falls. Upon returning they plan to make their home in Baltimore, Md.

The Cavaliers of Jenkins high are upsetting all records and coming through in fine style.

This year the Cavaliers began the year without the entire first five of last year's team and were given little chance to win a third of their games. In fact, one of Letcher County's leading sportsmen only allowed the Cavaliers three victories after the Christmas holidays.

Although all of last year's high scorers are missing this season, the Cavaliers are garnering large scores game after game.

The Cavaliers have scored well over 600 points which average around 40 per game. The Cavaliers defense in the past six games has been extraordinary, their opponents having been able to average near 30 points per game. Fifteen boys have had a part in accumulating a good record of nine victories against five losses.

Two boys Billy Anderson and Orville Goff have passed the century mark in the scoring column while John Ed Sergeant has passed the second century mark.

Plans to raise funds with which to purchase uniforms for the Jenkins School Band were fully consummated Dec. 15th when all of the 3,000 tickets to the Band Concert that evening were sold. The King Coal Theater, which was furnished gratis was filled and the patrons heard the band render several selections. The

program was augmented by a chorus of Jenkins High School girls under the direction of Miss Lois Cooper Adams, and Royal Band King, "Abb" Williams and Royal Band Queen, Lavon Burke were officially crowned by Rev. J. S. Hale. Band Director E. Paul Lyons in now assured of new uniforms for the band.

Kecton Church of Pound, Va., won the Dodge. We are reluctant to comment upon the efforts made to raise this money without mentioning certain names and commending them for their efforts and interest but many aided in the effort and to comment a few and not others might not be proper, at any rate there were a few who did splendid work in selling the tickets. We are sure they, as well as all who participated were more than glad to help, so let's just say a job well done."

The following figures show status of the fund as of Dec. 20.

Box Suppers	\$1,496.01
Tickets on band concert	6,000.
Donations	66.50
Total	7,562.51
Expenses:	
Printing Tickets	\$24.76
Down Payment on	
Majorette Uniforms	60.70
Misc. Expenses	22.20
Electric Mixer Prize	26.00
Dodge Automobile	1,763.22
Making Wheel	75.00
Total	1,971.88
Bal. On Hand	\$5,590.63
Good Work Band Boosters	

William Morris Beverly V. P. I. Student of Blacksburg, Va., spent the week end with his parents, Mr. and Mrs. W. W. Beverly.

Misses Irene Sexton and Bonnie Joe Brown, student nurse from West Baltimore are visiting their families for a few days. Miss Sexton and Miss Brown will graduate in June. Miss Gertrude Slyger also from Jenkins will graduate with Miss Sexton and Miss Brown.

Miss Martha Wright, better known as "Mook", has accepted the position as Secretary to Congressman John W. Heseltine of Mass., in Washington.

Miss Ruby Litts daughter of Mr. and Mrs. Joe Litts of Jenkins and Mr. Gene Markham of Beckley, W. Va., were married in the Methodist Youth Chapel, Saturday Feb. 14, at 7:30. The bride wore grey with black accessories. Her flowers were orchids. The maid of honor, Mrs. Carl Davis wore black. Her flowers were red roses. The best man was Mr. Carl Davis. The Rev. Peter, pastor of the Methodist Church read the wedding vows. Miss Thelma Higdon and Raymond Litts were the only two others attending the wedding.

The couple plan to make

The Y. U. A's met at the home of Miss Eloise Lawrence for a Valentine Party Friday Feb. 13.

Many enjoyable games were played and delicious refreshments consisting of brick ice cream, cookies, cakes and heart candies were enjoyed by all. Those attending were: Misses Priscilla James, Virginia Gambill, Rhedull Gambill, Mae Belle Wallen, Hazel Wallen, Jonnie Arrington, Maxine Adams, Leeburn Mave, Betty Sue Hall, Doris Hall, Florence Williams, Mrs. J. W. Jesse Counselor and Rev. Lee James and Miss Eloise Lawrence.

Mr. William Swanigan and daughter, Barbara Jo of Whitesburg were visiting Mr. Swanigan's aunt Mrs. Charles Cline in Jenkins Sunday.

Mr. William Kindall Lisnaly spent the weekend in Lexington.

Mr. Jack Murray was visiting Miss Helene Esmont over the weekend.

HINTS FOR WOMEN WHO SEW AT HOME

Hints to home sewers, who during the slack season are making their cotton dresses for spring and summer, are suggested by Miss Verna Latzke, specialist in clothing at the UK College of Agriculture and Home Economics. Because the new look, obtained principally through longer and fuller skirts, will cost each wearer from one to several yards more material, Miss Latzke advises checking yardage requirements as given on the pattern envelope before the material is bought, else there might be a shortage when the garment is cut. The approved skirt length for spring continues to be mid-calf she said.

A second safeguard is to buy cotton fabrics which have been sanforized, or are labeled not to result in more than one percent residual shrinkage upon washing, Miss Latzke pointed out. When cottons have not been so treated the home sewer is cautioned to shrink them before a garment is made. This may be done by first folding the material wrong side out with selvages even, then soaking in thoroughly warm water and hanging carefully to avoid unnecessary wrinkling. When partially dry, it should be pressed on the wrong side, edges even. Done in this way, the original finish of the material will not be lost, the specialist said.

Seam finishes to be used on cotton dresses depend upon the weight and firmness of the fabric. The pinking shears may be used to give a finished edge on such firm fabrics as chambray, broadcloth and gingham. Where there is strain on lightweight fabric, Miss Latzke advises a plain seam with double rows of stitching a fourth-inch apart. An opened plain seam with each edge turned under

and stitched is recommended where ravelling is a problem.

WOMAN 73 BECOMES LEAP YEAR BRIDE

TULSA, Okla., Feb. 12—It was leap year, and 73-year-old Mrs. Sarah H. Scully of Tulsa "was lonesome and needed a man around the house."

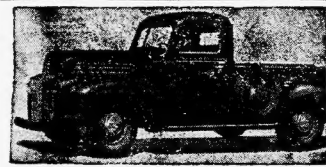

She wrote radio station KTUL about it, and her letter for the church-going, no-drinking type of man she wanted was read during a station program. Luke Barnes, 74, of Skiatook, Okla., wrote he was such a man.

Just about five hours after the two met here, they were married for the fourth time, he for the third.

Whitesburg Boy Receives Honors

William N. Cornett, son of Mr. and Mrs. S. J. Cornett, Whitesburg, is one of seven University of Kentucky ROTC students designated as distinguished military students for the 1947-48 school year. Col. G. T. MacKenzie, head of the U. K. Military Science Department announced this week.

Cornett received the honor on the basis of his demonstrated qualities of military leadership, moral character, aptitude for military service, and excellent academic standing. The distinction was bestowed in accordance with provisions set forth by the Department of the Army and the Air Force. Cornett is a student in the Air Force branch of the U. K. ROTC unit.

A graduate of Whitesburg High School, Cornett is a senior in the College of Commerce at the University.

Cross your "palm" Exotic palm-tree print, exclusive with DEMI-TASSE... in a two-piece original, slitted and freshened by a white pique collar. In a pre-shrunk, color-fast, Create-Resistant Rayon Linen. Green, Royal, Brown or Black on White Grounds. 12 1/2 to 22 1/2.

WHITESBURG DEPT. STORE "The Store Of Quality" Whitesburg, Ky.

It isn't the age or condition of your motor that is eating up gas and oil, giving you poor mileage, irritating you constantly with sluggish, slow, poor performance.

It's Sludge... Automobile Enemy No. 1... Choking your engine to death, smothering the fine performance your motor can still give you.

In a few minutes, a Motor Hi-Klonic will take out the sludge, every sticky, tricky, gooey drop of it... it will get the gum and grit and destructive road dirt and metal filings, too. It will free piston rings, restore cylinder clearances, get life-saving lubrication to every moving part.

All in a few minutes... at an average cost. Seeing is believing. Drive in tomorrow and have this miracle performed before your eyes.

CONTEST RULES AND INSTRUCTIONS

1. Entries must be aged 15 or over. Professional experience not necessary. Submit snap-shot or other photo; head and bust or full figure views okay. On back of picture, typewrite or print plainly in ink, this information: full name, street number, zone, city and state; also correct age, weight and measurements (in inches) of height, bust, waist, hip and ankle. 2. All entries must be in our hands or postmarked on or prior to March 2, 1948. Submit through any Dr. Pepper dealer regularly serviced by a Dr. Pepper route man; or in person or by mail to nearest Dr. Pepper Bottler; or by mail direct to Dr. Pepper Company, Box 5086, Dallas, Texas. 3. The Talent Department of Paramount Pictures, Hollywood, will pick the winners and their decisions will be final. Four first choices, and one alternate for each (or more if necessary) will be selected. If, for any reason, any first choice selection may prove not eligible, the next succeeding alternate, or alternates for each respective place, will win. 4. Before finally being adjudged a winner, entrant must execute, if requested (jointly with husband if married), a written contract, agreeing to model for the 1949 Dr. Pepper Calendar and consenting to the use of her name and picture on calendar and in any other publicity or Dr. Pepper advertising, without compensation other than expenses, entertainment and opportunities mentioned herein. If winning entrant is under legal age, such contract must be executed by a duly appointed guardian jointly with the entrant and her parents. All photographs become the property of Dr. Pepper Company and none will be returned. 5. Hollywood trip includes luxurious train or plane travel with incidental expenses paid. During Hollywood stay, girls will be chaperoned by reliable escort service. Famous beauty and fashion salons will groom girls for posing (gowns and accessories for temporary use). All normal expenses paid for hotel, meals, taxis, selected shows, night clubs, etc. Time away not exceeding one week. 6. All employees of Dr. Pepper Company, its advertising agency, Dr. Pepper Bottling companies and members of their immediate families are barred. Contest closes March 2, 1948. As soon thereafter as Paramount Talent Department can make its selections and eligibility (under rule 4 above) is established, winners will be notified by mail.

"Behind the Scenes in American Business"

—by Reynolds Knight—

New York — Feb. 16—That long awaited break in the price level has finally arrived. Old Man High Cost of Living, usually pictured in the cartoons as a tall, unfriendly creature, will never look the same again.

What is the ultimate meaning of this resounding crack in our primary markets? It immediately conjures memories of 1929. But few of the steady, far-sighted observers expect this break to develop into a rout of our economy. This break in the opinion of the few people worth listening to, is a correction of a maladjustment and not the beginning of the end.

The correction was overdue. And some good things will come out of it. Your customer, the American housewife has had her purchasing power increased. She can now buy more food and still have something left over for other needed items. There will be less pressure for higher wages. Some kind of tax cut will go through Congress. And the farmer's purchasing power will still be high. True, crops are better throughout the world, but there is still a vast hunger in many lands. And the government, which talks anti-inflation, will spend \$40 billion, which hardly can be considered deflationary.

WALDORF FARM SHOW

—Not many industrialists would choose New York's Waldorf-Astoria to introduce a new tractor, but Joseph W. Frazer, a showman to the core, did it last week with resounding success. Recalling the scenes in December, 1945, when Frazer introduced his new cars in the same place, crowds of farmers from the area surrounding metropolitan New York stormed the hotel to get a first view of a revolutionary new farm machine, the "Jaques-Frazer" tractor, a light-weight, low-cost unit utilizing a "small engine high torque principle" to achieve adequate power without unnecessary weight. Designed to sell for about \$695, the tractor combines a six horsepower, aircraft-type motor with a six-speeds-forward transmission and, with its rotary tiller attachment, will prepare more ground for planting in less time than a high-horsepower tractor with two 12-inch plows. Frazer asserts. More than 20,000 persons thronged through the exhibit during the two-day show and orders were booked for 3,545 of the new machines—indications that the Frazer showmanship pays off.

THINGS TO COME

—Mine owners are turning to airguns and away from explosives in mining coal. It is safer said to be cheaper. . . . The man of the house, with muscles groaning from snow shoveling this winter, will be glad to know there is a new, power snow plow on the way. It cuts a 36 inch path. . . . Motorists plagued by toll-houses on highway can now get a little coin holder which fastens on the dash board, makes it easy to reach for that dime. . . . Plastic division of General Electric is making a plastic sailboat. . . . A new paste, which you mix with the water you use for cleaning floors, is said to catch germs from the air the way fly-paper catches flies. . . . For fancy-packing apples and berries, there is a new cardboard container that can be set up without glue, taping or stitching. . . . The Silex people will soon announce a new utensil made of crystal and chrome which will keep tea, coffee, other beverages hot while awaiting serving.

GIVE-AWAY

Five nice female puppies, part screw tale Bull, will make good pets for children. If interested call 95 or see Mrs. Nolan.

"In this Air Age," the Navy as a combat organization, is as strong as its aviation, the air arm on which rests the burden of maintaining our seapower," according to the Hon. John Nicholas Brown, Assistant Secretary of the Navy for Air.

CONTEST CLOSING MARCH 2, 1948

Don't let your EDUCATION die young!

A high school diploma is only the first step toward a higher education! The Army's Technical School Plan offers every graduate the opportunity to choose from more than 60 top-notch Army Technical Schools and be assured before he enlists of attending a course of his choice.

They may be stationed. Those who successfully complete the various USAF Correspondence Courses can apply for awards toward a college degree. Get further details at your nearest Recruiting Station.

35 Fall, 12 Hurt As Newly Laid Roof Caves In

Kingsport, Tenn. — Officials today examined the shambles of a building to learn what caused its concrete roof to tumble in, killing four men and injuring 12 others late yesterday afternoon. Thirty-five workmen rode the fall to the ground level, sitting or standing.

The dead William H. Wallen, Gate City, Va., Alfred Roberts, Fall Branch, Tenn., Floyd W. Tipton, Maryville, Tenn., William H. Dougherty, Blair's Gap, Tenn.

The injured included Tom Yancey, owner of the building, who was on top of the roof when it went down. He was injured slightly. Others injured included Charles P. Wright, 48, Kingsport, sculp and back injuries; Douglas V. Maxwell, 30, Church Hill, face lacerations; Virgil Turner, 35, Kingsport, torn right shoulder injured; William H. Lyons, Kingsport, back injury; E. L. Spears, 23, Kingsport, arm and eye injuries; Homer Cooter, 44, Kingsport, ankle and chest

injuries; Hugh Hartgrove, 39, Kingsport, bruised finger; Orville Lee Light, Rogersville, injuries to both arms.

James Pruitt is in a serious condition at a hospital. He is suffering injuries to the skull, left knee and right ankle.

Also seriously injured was Robert E. Ellis, Kingsport, with fractures of both legs and a possible fracture of the pelvis.

All the injured were reported today, however.

Witnesses said the roof collapsed slowly and most of the 50 workmen rode it to the ground.

Police said workmen began pouring concrete for the roof of the large one-story automobile sales building early yesterday and had filled about one fourth of it when it gave way.

Hamilton Wallace, member of the architect firm which designed the building was inside when the roof fell, but escaped safely. He could not tell the cause of the collapse, but said he would investigate and issue a statement.

"The steel girders buckled in the center of the roof and fell,"

he said in the side walls," Nathaniel Major of Elizabethton, a workman said.

Veterans Administration Notes

Whitesburg, Ky., Feb. 19.—Only veterans in schools, colleges, and universities pursuing full-time courses of education will be entitled to increased subsistence allowances under a law signed February 14 by President Truman, Walter D. Fulton, Letcher County Representative of the VA announced today. Mr. Fulton further clarified the law.

Part-time students, on-the-job trainees and others will not be entitled to the increased VA ruling held. The bill signed into law, S.1394, amends the Servicemen's Readjustment Act (G. I. Bill) and the Vocational Rehabilitation Act (Public Law 16) for the disabled.

The new payments will be at the monthly rate of \$75 for a veteran without dependents, \$105 for a veteran with one dependent, and \$120 for a veteran with more than one dependent.

The higher rates are applicable to periods of training on and after April 1, 1948, however, since subsistence allowance checks are not due until the end of the month in which the veteran is completing most of the eligible veterans' subsistence will receive their first checks at the higher rates on or shortly after May 1, 1948.

Veterans taking any of the following types of training are not entitled to the increases, but will continue to receive subsistence payments at the old rates of \$60 a month for those without dependents and \$80 for those with dependents:

1. Part time institutional training. 2. Institutional on-the-job training. 3. Apprenticeship or other on-the-job training. (For which veterans receive compensation for productive labor.) 4. Combination of cooperative training in which students attend school part time and are employed part time, usually in a related field. 5. Internship and residency training. 6. Graduate training under a fellowship requiring a reduced credit course-load because of service rendered under provisions of the fellowship.

Eligible veterans now in school, who are entitled to \$75 or \$105 under the new rates, will not have to apply for the increased allowances. Existing applications will supply all the information needed to pay the new benefit. These veterans, therefore need not write VA at the present time concerning their increases.

Veterans entitled to \$120 because they have more than one dependent will be required to submit information about their additional dependents before payments at the new rates can be made.

In the case of dependent children, photographs or certified copies of their birth certificates will be necessary. In the case of dependent parent, evidence of actual dependency must be submitted. Veterans in this category should see him, Mr. Fulton said.

If veterans now in training submit evidence of dependency prior to July 1, 1948, they will receive retroactive payments at the new rates back to April 1, 1948.

Trailway Wants New Bus Route

Frankfort. — A hearing was resumed today on the application of the Indianapolis and Southeastern Trailways bus line for a route through Kentucky between Cincinnati and Knoxville.

Witnesses testified yesterday that Greyhound buses operating between Cincinnati and Whitesburg in long lines for tickets which often afford them nothing but standing room.

Trailways wants a route that parallels all but 110 miles of the 310-mile route held by Greyhound which is fighting the application.

Trailways officers contend their inability to get a route through Kentucky breaks continuity of their service between Chicago and Miami.

Body Of Youth Found Near Levee At Middlesboro

Middlesboro. — The body of Chester Ray Sutton, 24, was found along the flood control levee at Middlesboro early Saturday morning after Sutton had "walked off the bridge" at the Junction at about 10:30 Friday night.

Sutton had been driven to the bridge by Bob Meyers, taxicab driver, with three other persons in the cab. All four witnesses told the same story.

When the cab driver told Sutton as he got out of the cab: "You owe me fifty cents," Sutton answered, "I don't owe you a cent."

Almost immediately after the three other passengers said Meyers cried out, "Oh my God, he's walking off the bridge." Meyers jumped out of the cab with a flashlight and tried to locate Sutton. Policemen were sent for and Boy Scouts were called out.

The three passengers were Irma Lee Richardson of Thorn Hill, Tenn., Albert R. Davis and Joe Earl, both of Newtown. They said Sutton got into the cab at the Wabash Hotel, after he had agreed to double up and take him home. They declared there were no words during the ride.

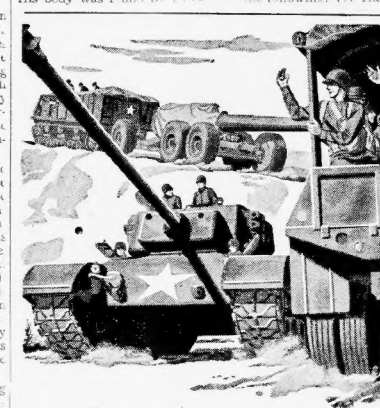

They admitted they had been drinking but denied that they were drunk.

Sutton was the son of Mr. and Mrs. Charlie Sutton. He is also survived by two brothers and one sister.

John M. Robison Dies In Sleep, Victim of Heart Attack

Barbourville, Ky., Feb. 18.—The John M. Robison, long-time Republican lawmaker, Kentucky's Ninth Congressional District, died unexpectedly here last night at the home of a friend. He was 75.

Robison died in his sleep at the home of John Pickard, Circuit Court Clerk of Knx County, Ky., at 6:30 p. m. Dr. T. R. Davis attributed Robison's death to a heart attack. Robison had eaten dinner at the home of Pickard, after which he lay down for a nap. His body was found by Pickard.

It's a man's life!

Do you know whether you've got what it takes when the chips are down?

There's one good way to find out just how much of a man you are. Enlist in the U. S. Army as a combat soldier. That's tops. That's the spearhead—the sharp cutting edge of the Army's manpower.

The world's best training for manhood is in the Infantry, Artillery and Armored Cavalry. Once you've made the grade in those hard-hitting services you'll know what you've got. You'll have firm confidence in your own abilities.

It's a proud feeling to be able to say "I'm a U. S. Army Soldier." There's no more honored title than that. It stands for the finest fighting man on earth.

The work of a combat soldier isn't easy or soft. But it's vitally important to the peace and security of America. There's satisfaction in it. There's good pay—better than in most civilian jobs. There's the opportunity for excellent training in a wide variety of valuable trades and skills. And there are other things money can't buy—such as rugged, clear-eyed health and the lasting comradeship of real men.

If you're 18 to 34 years old (17 with parents' consent), physically sound and mentally keen—if you'd like to prove to yourself that you measure up as a man—talk it over at your nearest U. S. Army and U. S. Air Force Recruiting Station today!

CAREERS WITH A FUTURE
U. S. Army and U. S. Air Force

ard.

Last week Robison came from Washington to attend a Lincoln dinner in Louisville. He suffered from a cold since returning, but was not seriously ill. Before returning to Washington, he had decided to visit his home in Barbourville. While here he had visited his friends and had been invited to the Pickard home.

Surviving are his wife and a daughter, Mrs. Daisy Edmonds, who are in Washington; and a son, John M. Robison, Jr., Louisville attorney.

His death came as a great shock to the people of his district.

Kentucky Representative Slugged In Hotel

Frankfort, Ky., Feb. 18.—Friends of Rep. Walter K. Coleman, Louisville, continued a fight today that he was knocked down with a blow on the jaw last night in a hotel fracas here that developed from a practical joke.

Coleman was treated here and then went to Louisville, where his name was not learned, but who was ascribed himself as an ex-marine and not a member of the legislature was reported to have hit Coleman.

U. S. Navy Recruiting Substation

The U. S. Navy Recruiting Service Sub Station Headquarters, located in the City Hall at Hazard, Ky., announced this week that they would have a representative, visit Whitesburg on each Thursday in the future. The Naval Recruiter will be available for personal interviews from 10:00 A. M. until 2:00 P. M. at the Whitesburg Post Office.

The U. S. Navy, is now enlisting men from the ages of 17 to 31. High School Graduates are offered their choice of a Naval Service School, immediately after their basic training. There are over 80 different Trade Schools, in the Navy.

In order that applicants for the U. S. Navy can be processed while the Recruiter is in Whitesburg, the Recruiting Service requests that all applicants who are 17 years old

bring the following: (1) Their

father or legal guardian, (2) their birth certificate, school record, or family bible, (3) and in case of a high school graduate, his diploma. When 18 or over, it is requested that you bring the following: (1) Your birth certificate, and (2) in the case of High School Graduate, your diploma. Ex-service men (of all services) are requested to bring their honorable discharges.

Certain ratings are still open to Ex-Navy men and you can be reenlisted at your old rating, providing you fall under those ratings that are open. Army, Marine and Coast Guard veterans are also eligible for certain rating in the Navy, corresponding to those held in your particular branch of the service.

Mrs. W. L. Stallard, Jr., and Mrs. Ruth Rice were joint hostesses to the Belle Bennett Circle on Friday evening, February 13, at the home of Mrs. Stallard. Mrs. Rice was the program leader. Included were: Mrs. Herman Combs, Mrs. Albert Jones, Mrs. Astor Collins, Mrs. August Codispoti, Mrs. Edd Maggard, Mrs. Bill Toliver, Mrs. L. B. Goodwin, Mrs. Cecil Webb, Mrs. H. Combs, Jr., Mrs. Irvy Back, Mrs. Paul M. Stewart, Mrs. Carl Breeding, Mrs. Zenneth Bentley, Mrs. Archie Craft, Mrs. Coy Holstein, Miss Viola Cook and Miss Elline Salyer.
